

## ImpactLives Student Advisory Board

The Student Advisory Board (SAB) is an active group of students that provides input to ImpactLives Staff and Board regarding activities and programs for schools.

### ImpactQuest Leadership Development Program

ImpactLives is honored to have strong partnerships with amazing students that have experienced the ImpactQuest Leadership Development Program, and want to hone their skills on a student board of directors. These young adults are hard working, and demonstrate exemplary leadership skills at school, with friends and family, and in other areas of their lives.

### Experience on a Board

The students meet once a month to collaborate on strategies and tactics that will promote and sustain service learning programs and activities for students.

They investigate and research new ideas for how to integrate other students into the vision and work of ImpactLives.

The current SAB has representatives from the International School of Minnesota, Orono, St. Paul Academy, Blake and Edina. If you or someone you know (high school or college-aged student) would like to be a part of the SAB, please contact us at [Info@ImpactLives.org](mailto:Info@ImpactLives.org).
